EDUCATION

B. Tech in Information Technology | Sri Balaji Chockalingam Engineering College, Tiruvannamalai
2022 – Present | CGPA: 8.2 (till date)
Grade XII (89%) | Sri Vardaman Jain Matric Hr. Sec. School, Vellore (2022)
Grade X (81%) | Sri Vardaman Jain Matric Hr. Sec. School, Vellore (2020)

PROFESSIONAL SUMMARY

Final-year B.Tech IT student with a CGPA of 8.2, having strong communication skills and adaptability. Experienced in full-stack development and data handling, with the ability to analyze, manage, and organize information efficiently. Interested in working in dynamic environments, including HR operations, recruitment support, and workforce management. Quick learner with a positive attitude and willingness to take up new challenges and responsibilities.

SKILLS AND INTERESTS

- Languages:** Python, SQL, HTML, CSS, MS Excel, Version Control (Git & GitHub).
- Platforms:** Visual Studio Code.
- Soft Skills:** Clear communication, Teamwork, Adaptability & Learning

PROJECTS

1. Local LLM Chat System (Multi-Model AI Integration)

Built a full-stack AI chat platform using React and Spring Boot, integrating multiple local LLMs via Ollama with dynamic model selection and chat history persistence.

2. Event Booking Platform

Developed a modern, responsive event booking platform using React 18, TypeScript, and Tailwind CSS, featuring elegant UI/UX, event management, contact forms, and mobile-first SEO-optimized design.

3. Student Result Analyzer

Developed a tool to analyze student marks from CSV data, providing total and average per student, identifying toppers, calculating subject-wise performance, and visualizing pass/fail trends using Pandas and Matplotlib.

4. Student Attendance Tracker

Developed a Python-based GUI application using Tkinter to mark and manage student attendance. Integrated CSV storage for data persistence with automated date & time logging, ensuring a simple and user-friendly interface.

INTERNSHIP

Full Stack Development| NexGen Technology | July 2025

Worked on backend development using Django and built frontend interfaces using HTML, CSS, and Tailwind. Gained experience working in a team and using Git for version control, which improved my teamwork, adaptability, and problem-solving skills.

ACHIEVEMENTS AND CERTIFICATES

- Won 1st place in Paper Presentation (Dr. MGR Chockalingam Arts College). Inter-College** – Won 2nd place in Web-Development, along with a hefty cash price
- Hackathon** – Participated in Adobe

CERTIFICATES:

Full Stack Development Master Class – NoviTech R&D Pvt Ltd(Dec 2024)
DevOps Fundamentals-Udemy (In Progress)
